Iron

Metal made ceramic. Iron is the perfect fusion of the strength and elegance of metal, transformed into avant-garde ceramics. Inspired by the appearance of unpolished sheet metal, fresh from the foundry. This collection captivates with its industrial and contemporary aesthetic. Iron's surface has a firm texture that faithfully captures the essence of metal in a porcelain finish. Shades range from the darkest greys and silvers that evoke the strength of metal, to warm tones that infuse elegance. Each Iron tile emanates an authentic chromatic richness, like a freshly forged piece of metal. In addition, Iron's lapatto finish incorporates reflections that evolve according to the light, creating a dynamic range of shades that enhance the depth and texture of the surface. The collection is available in white, grey and rust colours in a large 80x160cm format.
