Abaco

Total cement. Innovative, versatile and extremely functional, Abaco is a collection that takes the nuances of cement to their highest level, improving them with the durability of porcelain tiles. Conceived both as floor and wall tile, this range combines formats, colours and finishes for outdoors and indoors, highlighting its worn effect filled with microtextures in endless interiors. From the Natural finish, closer to crafted cement, or the In&Out finish, provides a soft and highly antislip surface, ideal for indoors and outdoors. Available in a wide colour range of neutral hues, it also features decorative lines with reliefs of geometrical effects.
