Coralina

Coralina's richly nuanced base and refined cream colour are designed for a sense of calm. Its pieces in a large 40x120R format offer a continuous and elegant surface, with chromatic depth, that transmit calm and warmth. In decorative format, Suite Coralina evokes fossilised plant motifs, such as the delicate impressions of ginkgo leaves, which seem to have been trapped in stone, brought down through time to the present day. Its organically patterned surface details exude Art Decò and introduce an additional dimension to ceramic design with these innovative three-dimensional effects. The texture is the protagonist and invites you to walk among each shape and notice the relief of its delicate prints and organic rich details. The collection is available in 40x120R format, in a Bone finish that blends harmoniously with an exceptional tactile experience.
