Brixstone

Brixstone is inspired by dolomitic sedimentary rocks. Time caresses its surface and enriches it with grains, soft, tiny wefts and chalky traces for a complex and tempered finish. This 30x90R white body wall tile is designed with the ideal texture and shades to combine with Serena. Brixstone provides a neutral and warm base, perfect for creating soothing, cosy atmospheres. The subtle texture and nuanced tones of Bone and Moka make this collection an ideal choice for timeless and refined design spaces. Deko Brixstone is a delicate and evocative floral design in 30x90R format that reinvents the wallpaper tradition with subtle plant reliefs that add a splash of colour. Deko Kilim creates a continuous visual effect that can transform a simple wall into a central feature with personality. This geometric design evokes a sense of dynamism and movement that revitalises any environment with a contemporary aesthetic.
