## Mosaicos Diamond y Scale

Two designs, Diamond and Scale, take centre stage in this collection. The first, with a hexagonal layout, is inspired by the geometry of a polished jewel; the second, with a scale shape, evokes the soft, organic contours of nature. Both versions are available in two metallic shades, Copper and Silver, which enhance their sumptuousness and give their surface a changing light. In the Diamond mosaic, the precision of the assembly of each hexagon produces an enveloping effect, where reflections are multiplied thanks to the brushed finish. These decorative pieces expand the expressive potential of Roca Tiles' ceramic collections, allowing for exclusive and contemporary compositions. Designed to blend naturally into interior design projects, they add an original and elegant touch. The result is a wall tile with great personality, perfect for enhancing walls or unique corners with an original touch. A collection designed to leave a mark.
