Colette

Colette, tiles with a French accent. Colette conquers us due to its charm and femininity. With a wide colour range -where the colour navy blue stands out- this collection of wall tiles provides a vintage look to any room thanks to its finish inspired by irregular cement. Available with a mosaic décor that combines different nuances of colours in the same piece. Colette is an option which is able to transform small-sized kitchens and bathroom spaces in welcoming areas with a certain French style. This collection is available in the format 21.4x61 cm.
