Fraké

Japandi Fraké fuses Scandinavian minimalism with the spirit of Japan in a simple and authentic, clean and elemental design, born to generate beautiful atmospheres. A soothing wood due to its colour range, that is evocative in originality and its distinct finish, with deep, contrasting veins that add great visual richness. Its seemingly smooth texture reveals a subtle, pearly powder effect thanks to the combination of multitudes of matte and bright points, giving it a natural treated-wood shine. This effect is accentuated by the incorporation of meticulously sculpted micro-reliefs in sync with the colour nuances of each slat. The light-toned, deep veins running from light yellows and golden browns through the pieces give the accent of colour to this exclusive, balanced and elegant collection.
