Limestone

Essential neutrality. Shades and a mix of reflections bring life and realism to a collection inspired by limestone compounds to carefully replicate every particle, luminescence or nuance of these surfaces. Limestone is a classical and timeless proposal aimed at simple and essential interiors. Neutral places away from any noise, spaces at the service of an objective, giving all the protagonism to those who live in them, to their wishes and goals, always within grasp. In modular formats, whether rectified or not, its decorated lines, Ocala and Bosco, replicate the finish in wooden planks, thus allowing different combinations.
