Bar Tile

The Bar Tile collection redefines space with an intimate geometry and a glazed finish that plays with light. Each piece, smooth to the touch and with subtle shades, reveals slight undulations on its surface that capture changing glints depending on the angle of view. Its handcrafted character, far from the obvious, creates contemporary and sophisticated environments that exude serenity. Its length invites us to play horizontally, vertically or obliquely to modulate the perception of space and filter the incident light, transforming every centimetre into an active design element.
