

Roca Tiles News

February 2020

A photograph showing the exterior of a modern exhibition booth for Roca Tiles. The booth has a dark, angular structure with large glass windows displaying various tile samples. A prominent sign on the right wall reads "OPENMIND/CERAMICS". Below the sign, a smaller text area says "Come in and open your mind to the new ceramic approach." followed by the website "roca.es/ceramica". The overall design is minimalist and contemporary.

OPENMIND/CERAMICS from Roca at Cevisama 2020

OPENMIND/CERAMICS de Roca en Cevisama 2020

Under the Openmind concept, Roca has designed a new way of understanding their collections in a comprehensive manner, with floor and wall coverings that invite us to combine pieces of different sizes and disposition, in a universe of ceramics present from 3rd to 7th February, at Cevisama.

The installation of 600 m² generated by Roca in the latest edition of Cevisama is a tribute to the magnitude and scale of architecture via connected environments, in an immersive circuit that proceeds through collections and new ways to use ceramics, in spaces specially designed for contract and interior design professionals.

Bajo el concepto Openmind, Roca ha concebido un nuevo modo de entender sus colecciones de manera global, con pavimentos y revestimientos que nos invitan a combinar piezas de distintos tamaños y disposiciones, en un universo cerámico presente, del 3 al 7 de febrero, en Cevisama.

La instalación de 600 m² generada por Roca en la última edición de Cevisama es un homenaje a la magnitud y a la escala de la arquitectura a través de ambientes conectados, en un circuito inmersivo que recorre colecciones y nuevas formas de uso del material cerámico, en espacios diseñados especialmente para profesionales del contract y del interiorismo.

The new collection of marbles takes visitors into a new universe of the brand, along linked paths, where the product is the backbone of the entire complex, integrated into the architecture of the space. In&Out finishing solutions, modular formats, Thinbig ceramic pieces and 20 mm thickened pavements shared a leading role in Cevisama in conjunction with the Abaco, Limestone, Bosco, Terre and Basel collections, in contemporary proposals and an impeccable aesthetic.

Experimentation and creativity were the protagonists of the Roca lab, a space aimed at contract professionals and architects as a commercial support for combining the company's latest signature materials and its flooring and pavements serve as tools and inspiration to visitors.

The community related to Roca Tile also enjoyed a unique after-work party with live music, a photo call, cocktails and sweets in coral, pistachio, cobalt and turquoise colours, as the central driver and symbol of this new open look.

La nueva colección de mármoles adentra al visitante en el nuevo universo de la marca, en ambientes trazados y vinculados, donde el producto es el eje vertebrador de todo el recinto, integrado en la arquitectura del espacio. Las soluciones en acabado In&Out, los formatos modulares, las piezas cerámicas Thinbig y los pavimentos espesorados de 20 mm compartieron protagonismo en Cevisama junto a las colecciones Ábaco, Limestone, Bosco, Terre y Basel, en propuestas contemporáneas y estética impecable.

La experimentación y la creatividad fueron los protagonistas del lab de Roca, un espacio dirigido a profesionales del contract y arquitectos como apoyo comercial para combinar los últimos materiales de la firma y que sus suelos y pavimentos sirvieran de herramientas y de inspiración a los visitantes.

La comunidad vinculada con Roca Tile disfrutó además de un singular afterwork con música en directo, photocall, cócteles y dulces con los colores coral, pistacho, cobalto y turquesa, como eje conductor y símbolo de esa nueva mirada abierta.

At the service of your creativity
Al servicio de tu creatividad

Production Center - Belcaire
Pol. Ind. Belcaire, Calle C, no 34 / 12600 - La Vall d'Uxó - Spain

Showing all the Roca Tile production stages is the aim of its new showroom, prepared to be experienced from all sides.

Mostrar todas las fases de producción de Roca Tile es el objetivo de su nuevo showroom, acondicionado para ser experimentado desde todas sus vertientes.

The new Showroom space is born to facilitate a practical and professional environment full of resources for distributors, architects, interior designers and design lovers who work with Roca. In this way, professionals will be able to get to know all the catalogue materials in situ and combine their formats and textures in a comprehensive manner.

The Showroom features an exhibition area and a lab. The rooms of the exhibition area combine colour ranges, collections and solutions for interior design and architecture projects such as shops, sports centres, hotels or public spaces, in interior and outdoor finishes, while in the space of the workshop laboratory space a large work-table has been positioned that allows you to play, view and combine all the catalogue materials in situ.

This technical room is adjacent to the company's creativity and marketing department, which can also be visited to learn about the permanently renewing trends and developments in this space.

Contact us to reserve a date to visit us. A very inspiring working environment waits.

El nuevo espacio Showroom nace para facilitar un entorno profesional práctico y lleno de recursos a los distribuidores, arquitectos, interioristas y amantes del diseño que trabajan con Roca. De este modo los profesionales podrán conocer in situ todos los materiales del catálogo y combinar sus formatos y texturas de manera integral.

El Showroom cuenta con una zona de exposición y una zona lab. Los ambientes de la zona de exposición combinan gamas cromáticas, colecciones y soluciones para proyectos de interiorismo y arquitectura como comercios, centros deportivos, hoteles o espacios públicos, en acabados interiores y exteriores, mientras que en el espacio taller laboratorio se ha habilitado una gran mesa de trabajo que permite tocar, ver y combinar in situ todos los materiales del catálogo.

Esta sala más técnica es contigua al departamento de creatividad y marketing de la firma, que también puede ser visitado para conocer las tendencias y novedades de este espacio, en permanente renovación.

Contacta con nosotros para reservar fecha y visítanos. Te espera un ambiente de trabajo muy inspirador.

The contract side of **Roca at Fitur**

La cara contract de Roca en Fitur

Roca pavements and wall coverings meet the highest technical and aesthetic conditions for contract projects, which is why they were chosen to be part of the ITH stand (Hotel Technological Institute) along with other firms at FITUR, the global meeting point for tourism professionals with 150.000 participants from 140 countries.

The collections that were selected to prepare the floors and walls on the stand on technological developments in the hospitality sector of the ITH were Basel and Newfoundland, both inspired by natural stone, with a depth of design and sober, minimalist finishes.

The innovative manufacturing process of Basel introduces faint light effects and glossy areas, typical to polished stone, while Newfoundland allows you to faithfully compose the textures of slate in highly integrable formats with the unfaltering quality of porcelain.

Both collections were displayed in modular formats, from which different sized elements, materials and textures can be harmonised to generate high-contrast environments.

Los pavimentos y revestimientos Roca reúnen las mejores condiciones técnicas y estéticas para proyectos contract, por ello fueron elegidos para formar parte del stand de ITH (Instituto Tecnológico Hotelero) junto a otras firmas en FITUR, el punto de encuentro global para los profesionales del turismo, con 150.000 participantes de 140 países.

Las colecciones seleccionadas para acondicionar los suelos y paredes de parte del stand sobre novedades tecnológicas del sector hotelero del ITH fueron Basel y Terranova, ambas inspiradas en piedra natural, con profundidad de diseño y acabados sobrios y minimalistas.

El innovador proceso de fabricación de Basel introduce tenues efectos lumínicos y áreas satinadas, propios de la piedra pulida, mientras Terranova permite componer fielmente texturas de pizarra en formatos altamente integrables y con la calidad inalterable del porcelánico.

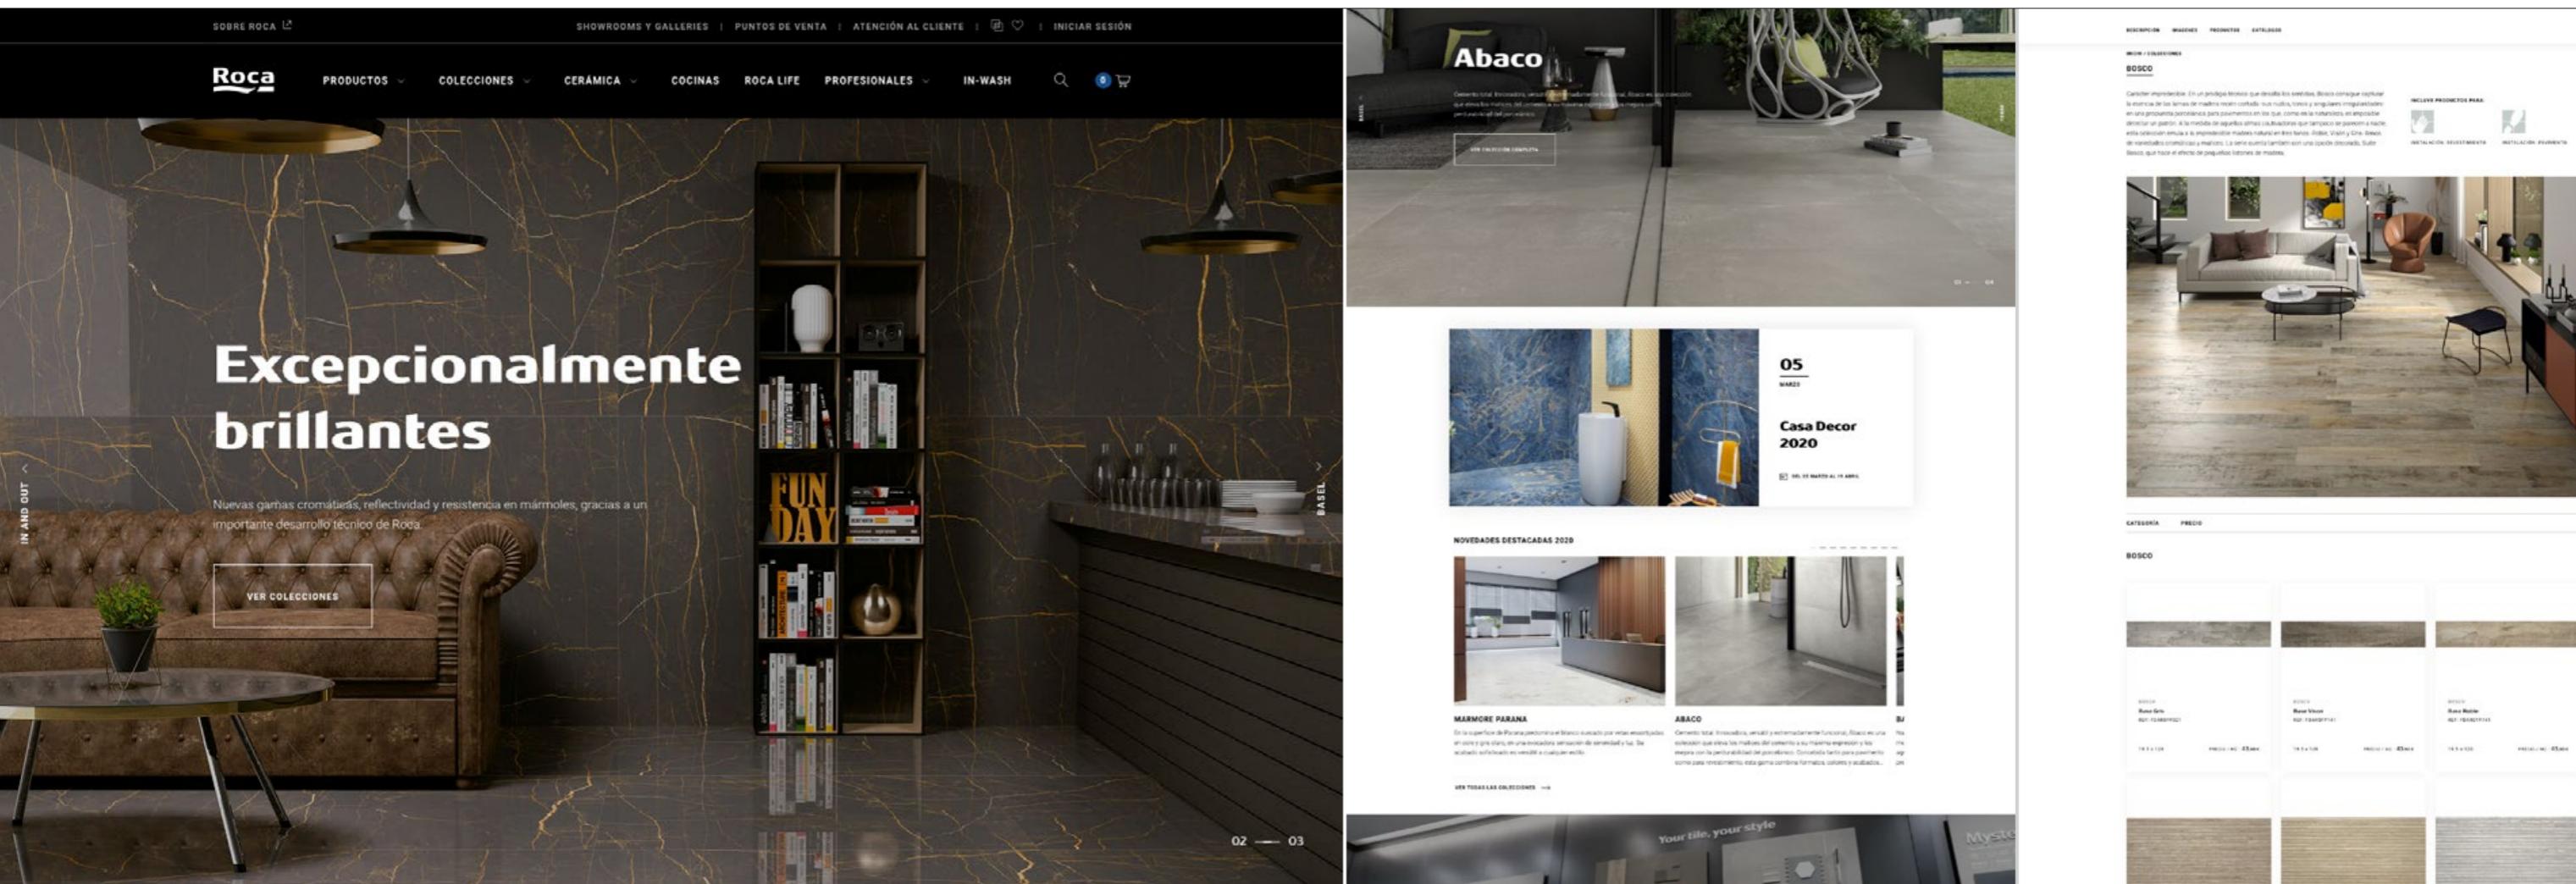

Ambas colecciones se mostraron en formatos modulares, con los que se pueden armonizar elementos de diferentes tamaños materiales y texturas, generando ambientes de alto contraste.

The Roca Tile 2020 catalogue is already at your disposal, which has an updated layout, renewed iconographies and expanded descriptions to approach the product characteristics to the maximum.

Image details come to the fore in this new edition to capture the nuances of each collection and allow the choices of materials and finishes that are most appropriate to the needs of each client.

The catalogue has expanded the user guide with new icons that facilitate the product descriptions with illustrations that identify the types of application, properties, finishes, de-toning or groups of use. Next to them are different indexes generated by style, collection, product type and format to make locating each product simpler.

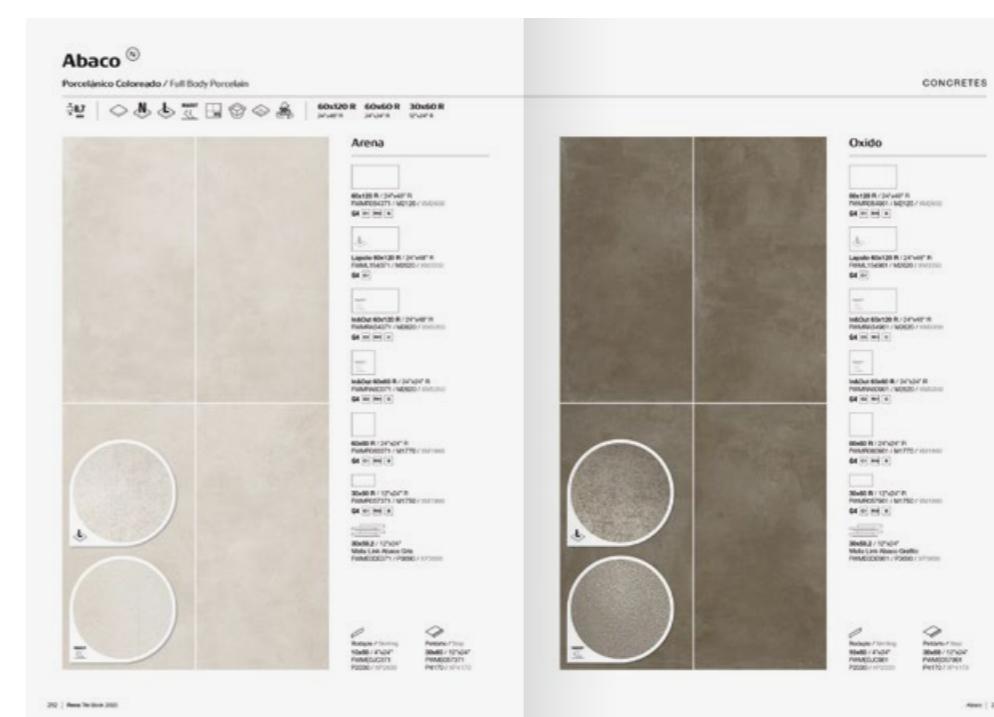

It is ordered by styles to make searches easier and a visual map heads each section to identify in images the finish that your product requires. Each product appears with ideas for placement, a selection of inspiring environments and the visualisation of pieces to conclude with an exploded view for technical support.

Ya tienes a tu disposición el catálogo 2020 de Roca Tile, que ha actualizado su formato, renovado iconografías y ampliado descripciones para aproximarnos al máximo a las características del producto.

Las imágenes detalle cobran protagonismo en esta nueva edición para plasmar los matices de cada colección y posibilitan la selección de los materiales y acabados más apropiados a las necesidades de cada cliente.

El catálogo ha ampliado la guía de uso con nuevos iconos que facilitan la descripción de los productos, con ilustraciones que identifican los tipos de aplicación, propiedades, acabados, destonificado o grupos de utilización. Junto a ellos se ha generado distintos índices por estilos, colecciones, tipología de producto y formatos, que facilitan la localización de cada producto.

Se ha ordenado por estilos para facilitar las búsquedas y un mapa visual encabeza cada sección para identificar en imágenes el acabado que requiere tu proyecto. Cada producto aparece con ideas de colocación, selección de ambientes inspiradores, visualización de piezas y concluye con el despiece técnico.

El formato digital del catálogo se puede descargar directamente de la página web de Roca.

A deep black is anything but sombre. In Terranova and Mystery black adds to the creation of environments where the evocation of marble and slate are the protagonists.

Un negro intenso es cualquier cosa menos sombrío. En Terranova y Mystery el negro suma en la creación de ambientes donde la evocación del mármol y la pizarra son los protagonistas.

Black is the new black

Powerful beauty of high contrast / Poderosa belleza de alto contraste

Terranova

Terranova brings together the natural elegance of slate and its satin feel. The subtle laminas of its layers deepen in the naturalness of a piece that evokes the effect of worn stone by adding the unalterable features of porcelain.

In this way, the interiors configured with Terranova are perfect for those who seek to shape a refuge where everyone feels at home. It is capable of evoking both the warmth of a northern cabin and the heat of the fireplace, as highly contrasting contemporary spaces.

Terranova reúne la elegancia natural de la pizarra y su tacto satinado. Las sutiles láminas de sus capas ahondan en la naturalidad de una pieza que evoca el efecto desgastado de la piedra añadiéndole las inalterables prestaciones del porcelánico.

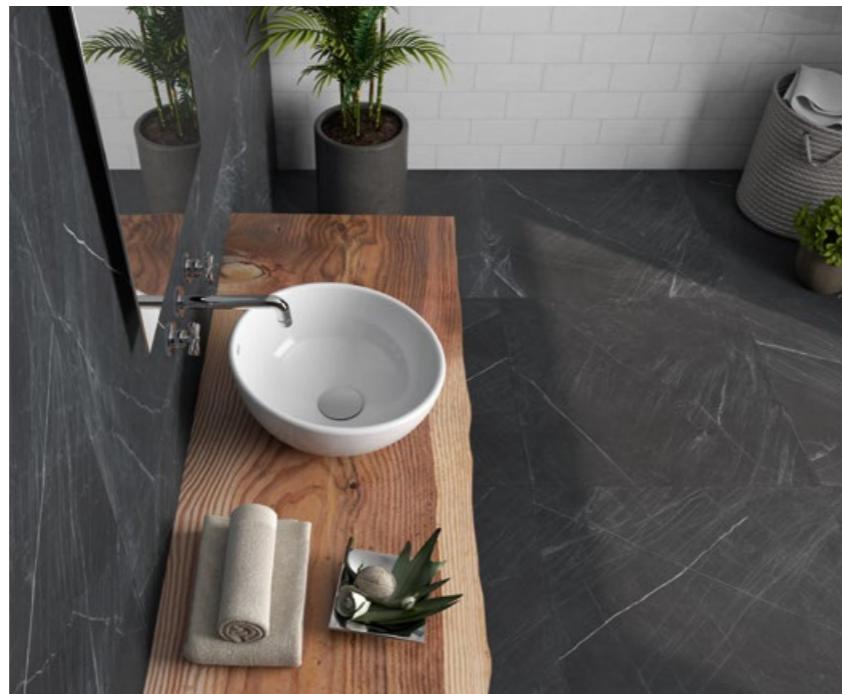

Así, los interiores configurados con Terranova son perfectos para aquellos que buscan dar forma a un refugio donde todos se sientan en casa. Capaces de evocar tanto las cálidas cabañas norteñas al calor de la chimenea, como los espacios contemporáneos de alto contraste.

Mystery

Mystery adds the imposing aesthetics of black marble to porcelain; and the elegance of art deco interiors with natural intensity, combining very well with coverings, reliefs and white decorations. A well-cared silky texture and a great visual quality, supplemented with a multitude of subtle reliefs are integrated into the design.

Mystery añade al porcelánico la estética imponente del marmol negro marquina y la elegancia de los interiores de art deco con intensidad natural, combinando muy bien con revestimientos, relieves y decorados blancos. Una cuidada textura sedosa y una gran calidad visual complementada con multitud de sutiles relieves integrados en el diseño.
